

IMPACT REPORT 2020

INPUTS: THE RESOURCES THAT WE DEVOTED TO OUR ACTIVITIES

OUTPUTS: THE ACTIVITIES THAT WE CARRIED OUT

Armed attackers were targeting the office of a collective of environmental defenders in Mexico. Our team developed office security guidelines and trained staff in these procedures, and recommended measures to improve the physical security of their office.

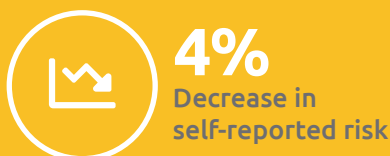

A civil society organisation undertaking strategic litigation in Tanzania was facing de-registration, surveillance, and office raids, and staff members' wellbeing was suffering. Our team developed internal and external crisis communication plans, an evacuation plan, and other contingency plans, and provided counselling sessions for affected staff.

The members of a network of youth pastoralist organisations across the Sahel and West Africa were experiencing attacks and intimidation. Our team conducted a risk assessment and produced a security policy and security plan for the network and provided templates for the individual organisational members to use.

OUTCOMES: THE EFFECT OF THE OUTPUTS ON OUR BENEFICIARIES

IMPACT: THE LONG-TERM OR INDIRECT EFFECTS OF OUR OUTCOMES

“Open Briefing’s holistic approach to security has enabled Goldman Environmental Prize winners to continue their work. Open Briefing is a trusted partner that we depend on to support our most at-risk activists and organisations.”
Goldman Environmental Foundation
